Every™ Engine. Available.

ReCon® MidRange Engines
When you need to swing an engine and time is critical, we have your solution. Thanks to a new ReCon® MidRange engine-stocking program, the most popular ReCon engines are readily available at Cummins dealer and distributor locations throughout the U.S. and Canada. These engines are completely remanufactured, incorporating the latest upgrades in materials and design. You get an engine that delivers great performance and reliability every time.

Extra Value In Every Way.

No other supplier can offer you this total value package of reliability, performance, service support, warranty and price. Cummins ReCon MidRange engines feature:

- Remanufacturing to latest Cummins specifications for improved performance and fuel economy
- 100% Genuine Cummins new or ReCon parts for highest quality and durability
- No-hassle core acceptance
- Fast turnaround that reduces equipment downtime
- The best warranty in the industry
- Backing by the most extensive service network in the world

Every Application.

The benefits of ReCon engines are available for non-Cummins-powered equipment. For better performance, durability and cleaner emissions, ask your Cummins representative about our program to replace competitive engine makes with Cummins ReCon engines.

Every Engine.

Cummins MidRange engines are available for a broad range of applications: shuttles, buses, emergency vehicles, vans and trucks, telescoping haulers, skid steers, farm tractors and bulldozers. Our most popular MidRange engines, which include the ISB, ISC, ISL, QSB, QSC, QSL, B3.9, B5.9 and C8.3, are featured in our stocking program.

Every Confidence.

You can buy a ReCon MidRange engine with total confidence. ReCon engines are backed by the best warranty coverage* and the largest parts and service network in North America. For additional details about ReCon engines, see your local Cummins dealer or distributor or visit quickserve.cummins.com.

*Ask to see the Cummins ReCon Engine Warranty Certificate.
